

## How to **INSTALL** the **ARC SPACE** App

Use your school iPad to go to the SELF SERVICE

Portal.  Search for the ARC SPACE app and **INSTALL** it. ARC Space app engages students to explore the Solar System, Rocket Building and Outer Space in an interactive way through 3D visualization. The App's content allows students to immerse themselves in the learning experience of our galaxy and bring space travel to life through a unique digital experience.

Once you have installed ARC SPACE on your iPad, use a coin to scratch away these directions.
