Trait	Beginning (1 points)	Developing (3 points)	Advanced (5 points)	Totals
Content Ideas	The pitch (or thesis) does not present a clear focus. Content is not of G Rating. Project is more than 2 Minutes	The pitch has a clear focus, but contains extraneous *material*. Age appropriate. Students communicate ideas with enthusiasm and/or voice associated with topic.	The pitch presents a creative, clear theme, point and message. All sources are properly cited within the project according to MLA style Students are clearly engaged in project Overall, wowed the viewer	
Editing Skill	Transitions detract from message. No music used or music detracts from message. No Titles Used.	Transitions used are effective but could be improved. Music and locational sound used quite effectively to complement message. Titles / Credits generally well done	Transitions and effects are only used to complement the message and information flow. Musical score and setting sound complement and enhance message. Sound levels don't detract from spoken dialogue Titles are creative and on screen titles and credits are used to convey important and relevant information,	
Audio & Video Capture	No background audio or very distracting audio Low quality video	Background audio is kept in balance and does not overpower the primary audio.	Audio is well coordinated with video; adds meaning or tone; easy to understand	
Videography - Camera Work	Project has one continuous shot. Lighting is poor. Poor camera work distracts from shots or documentary focus.	Shots are quite well framed and steady, but some improvement necessary. Movie is in focus and camera use steady. Project uses a minimum of 2 different video shots or angles to enhance storyline. Lighting is adequate	Shots are in focus, well framed and exposed. Tripod or monopod used for steady shots. Natural light is used to filmmaker's advantage. Lighting is used to eliminate shadows and glares. Scenes have sufficient lighting for viewer to easily see action. Camera angles are varied and interesting.
